

As Forever Fades "Dry Hope"

Visit "[Dry Hope](#)" on MotoLyrics.com

He awoke in the depths of darkness wondering how he
got here

I watched him through the camera
Gazing upon the process that I knew all to well
I knew it all too well, I knew it all to well, She's a demon
making my life hell
You dug my grave with your mouth now raise me with
your hands

Then will come screams of dry hope bolting from a
mind closed so tight not even the light could shine
through
You dug my grave with your mouth now raise me with
your hands

Just as I thought he is just like all the others
Who is out there?
What is going on?
Where is this place? This is just so wrong
I should not be
Here
He won't escape here; he shouldn't even try
