Watch it burn as the wheel of eternity turns, watch it  
burn

The olive branch of peace has been brought to their  
doorstep

A crisis is avoided by, forfeit the game from tragedy

Break me out just to break me in

Mortal life gives way to immortal sin

I'm not just like the other dudes you can mess around  
with

Steadfast, strong, and long gone she's on her knees

The olive branch of piece has been brought to their  
doorstep

Last chances were given up two times ago

Break me out just to break me in

Mortal life gives way to immortal sin

Watch it burn

The purposes were materialistic
