

## **As Hell Retreats "Reticent"**

Rise up in this falling nation!  
We are the tormented  
And being silent will give the tormentors, it will give  
them victory!

Neutrality will destroy victims slower and slower  
everyday!

This oppression will give us impression for a  
depressed nation!

Evict our voices already  
You're one step closer everyday

We are blind by this and most do nothing  
And to those who stand still  
You are their accomplices.

Incredulous is how I will be to this.

Don't bring me down  
It will be impossible.

No more being a reticent man.
