Take you away
Thrown away from the lies
What is left of here has died
Forever you will stay
For forever isn't far away

Take my hand
I'll take you far from here
Take this kiss
I'll take you to forever
Forever isn't far away

Sanctified from all the world
Sanctified from all the lies
Forever isn't far from here
Death defying truth beyond the skies
For forever isn't far away

Taken my hand
Taken this kiss
Taken what's left
Defining my death
Oh
