

As We Fight "Bringing It All Together"

We coming full force with all we got, 'cause we got
nothing to lose.
Only a feeling in our hearts that we will pull through.
No looking back, 'cause past is past and that time has
passed.
Straight from my heart I'll tell you this is where we
belong.
This is our scene and we stand strong.
Bringing all the kids together with open minds and
open hearts.
You can call it what you want cause we just don't care.
Our unity can't be beat.
Metal, punk or hardcore we stand as one, we stand
strong.
Bringing it all together.
