I'm watching you all the time, watching, looking up at
you

Moving too fast, I can't keep up, I am falling out of
reach from you

Wait for it, hate for the first time, late - forward I go
Nowhere but forward left to go

Wait for it, hate for the first time, late - forward I go
Nothing left for it - I'm leaving home

Driving close to, I might hit you, walk beside me, you'll
be safe

Do what you want, you believe in, too far gets you close
sometimes

Wait for it, hate for the first time, late - forward I go
Nowhere but forward left to go

Wait for it, hate for the first time, late - forward I go
Nothing left for it - I'm leaving home

Crawling, walking, rolling, longing, for two separate
sets of legs

Double ended heart-shaped rows - simultaneous flow

Snakes and ladders, nothing matters but this

This feeling, of not breathing, of not kneeling... don't
forget me too

Wait for it, hate for the first time, late - forward I go
Nowhere but forward left to go

Wait for it, hate for the first time, late - forward I go
Nothing left for it - I'm leaving home
