I, I know I am dying  
Still I'm gonna go trying  
I'll make it better

Cyclamen,  
You're holding it in again  
There's winter in every spring  
It's time to let go

Cyclamen,  
The temperature's rising again  
But you're tuber is absorbing the rain  
Continues to grow

I, I know I am dying  
Still I'm gonna go trying  
I'll make it better  
(It's over, It's over, It's over)

Cyclamen,  
It's hard to breath 'cause the air  
Is filled with your prayers again  
You've got to let go

Cyclamen,  
Time will always be lighter than pain  
It floats away from your stem  
You're left with a bulb

I, I know I am dying  
Still I'm gonna go trying  
I'll make it better  
(It's over, It's over, It's over)

It's over it's over, It's over it's over it's over.  
It's over it's over, It's over it's over it's over.
