"Long Way From Love"

You don't see me as well as you used to
And you don't fear me leaving you

We came a long way from love

And now days when I kiss you, you don't move your
tongue
And now days when I miss you, it's because you're
gone

We came a long way from love

Once I was black and you were white, now we're both
grey
Once we used to spend the nights and save the days

We came a long way from love

I used to look into your eyes and I used to see a map
I thought we'd finish this race together, or at least a lap

But we came a long way from love
