there's one thing you should know  
and two things that you need  
the first one you can find  
the second i've given  
i'll bring it out of you  
if you take it out of me  
(something something)and your thighs  
are makin me shallow

from the cornors to the curbs  
to the keepers of the faith  
to the comets in your eyes  
you take it for granted  
oh was i suppose to show  
oh was i suppose to care  
you dare to look inside(don't think this is right)  
that smile is my poison

time takes the will away  
not a moment to spare  
in the time it takes to reject the pain  
a gun cannot repair  
time takes it time

as you take me down  
and blind my eyes  
and break me down to size

as you take me down  
and blind my eyes  
and break me down to size

time takes the will away  
not a moment to spare  
in the time it takes to reject the pain  
a gun cannot repair  
time takes it time  
takes you back  
breaks you down to size

as you take me down

and blind my eyes  
and break me down to size

as you take me down  
and blind my eyes  
and break me down to size
