Skullfull of sulphur and you ain't gonna stop me,
Disintegrate I'm burning through the screen,
Mind meltdown going maximum speed,
The heart it beats and beats and beats and beats.
No night, no day, no heart, no pain, no mind, no love,
no shame yeah,
Skullfull of sulphur speeding out of my mind,
Neurons colliding losing track of time,
Erratic thoughts becoming more and more wired,
On a mission out of this life,
The heart it beats and beats and beats,
And beats and beats and beats and beats yeah,
Oh yeah what's your name?
What you say?
Skullfull of sulphur burning in a cold braze,
Confusion burning in road rage,
Nihilistic I am feeling no pain,
Don't even know my own name.
No night, no day, no heart, no pain, no mind, no name,
no love, no shame yeah,
Oh what's your name?
What you say?
Disintegration negation of thought,
Disintegration negation of thought:
No night, no day, no heart, no pain, no mind, no name,
no love, no shame, yeah.
No night, no day, no heart, no pain, no mind, no name,
no love, no shame, yeah.
No night, no day, no heart, no pain, again, again,
again, again,
The heart it beats and beats and beats and beats and
beats and beats and beats.
