She is my Christ,
She is my redeemer,
The architect of my dreams,
She'll stay with me forever,
The mention of her name,
Goes through me like a spear,
The mention of her name,
And I will surrender,
There's no need to fight it,
There's no need to hide it,
There's no need to doubt it,
Stay in love forever,
Stay in love forever.
Your voice in the morning,
Makes everything clearer,
All my doubts are gone,
And pain I can't remember,
Deity incarnate, celestial redeemer,
To me your name is sacred,
To you I will surrender,
There's no need to fight it,
There's no need to hide it,
There's no need to doubt it,
Stay in love forever,
Stay in love forever,
Stay in love forever.
Pure, complete, unbounded,
Absolute and overpowered,
Perfect and transcending,
For once for all and forever,
She is my Christ,
She is my redeemer,
The architect of my dreams,
She'll stay with me forever,
Love that won't die,
She is revolution,
Tender sweet godsend,
I'm granted absolution.
