Sink into warm flesh  
I want to taste your skin  
Want to see you undressed  
And see you shake your thing  
You're bound and helpless  
And burning from within  
There for the taking  
I want to hear you sing

You turn me on  
You cut me with your tongue  
You take it all on  
Submission

You turn me on  
You cut me with your tongue  
You take it all on  
Submission

There's nothing I won't do  
Even if it's wrong  
To please you  
That's where I'm coming from  
You warp my senses  
You're coming on so strong  
I gotta go down  
I gotta get it on

You turn me on  
You cut me with your tongue  
You take it all on  
Submission

You turn me on  
You cut me with your tongue  
You take it all on  
Submission

Sink into warm flesh  
You got me in a daze  
You give me fever

You hold me in your sway  
You're my addiction  
For you I'd take the pain  
Feel the friction  
And take it all the way

You turn me on  
You cut me with your tongue  
You take it all on  
Submission

You turn me on  
You cut me with your tongue  
You take it all on  
Submission

You turn me on  
You cut me with your tongue  
You take it all on  
Submission

You turn me on  
You cut me with your tongue  
You take it all on  
Submission
