The dust the world has gained is washed away by rain  
Some stains cannot be moved, mistakes you cannot  
lose  
But the circle never ends, it all comes round again  
Round and round and round and round

Everywhere is all around  
Find it if you can  
Make the most of what you've found  
Keep it with your plans

Kid Twist took the fall from the half moon's sixth floor  
We know what we are and what you thought you saw  
The half moon's secret lies in Bugsy Siegal's eyes  
It's what we bring to those who sing

Everywhere is all around  
Find it if you can  
Make the most of what you've found  
Keep it with your plans

Everywhere is all around  
Find it if you can  
Make the most of what you've found  
Keep it with your plans
