In a spiral, a comet on the blood red horizon
Fallin' headlong, in flames I tumble into the ocean
In a fever, it's never gonna let you forget her
Come whatever and who are you to know any better?

On a wave
Never gonna see her again
On a wave
Gonna ride it right to the end

A Tsunami
Slamming on floor of the ocean
An emotion
Butterfly has put it in motion

On a wave
Never gonna see her again
On a wave
Got it right, right to the end

On a wave
Breaking away
On a wave
Don't care what you're sayin'

She always swore that we'd make it whatever
Through any tempest, we'd stick together

She's in my system, she'll stay there forever
Like a virus in my heart

On a wave
On a wave

At night, I'm floating on the sea bed
White horses, charging over my head
And all is destined to decay
All is programmed to betray
In your heart and soul enslaved
Break away on an ocean wave

Devotion

I'm falling to the floor of the ocean
I'm a depth of charge
A fireball of love and emotion

Yeah, on a wave
Never gonna see her again
On a wave
Got it right, right to the end

On a wave
Breakin' away
On a wave
Don't care what you say
I'm leaving today
I'm breaking away on a wave
