Brothers fight acting mad
are times of war
people run people die
praying the lord
shoot shoot in the night
the soldiers came
living proof you will back
with glory and fame

nowhere to run
nowhere to smile
nowhere to live
nowhere to die

round and round hear the sound
of fighting men
they surrender here and there
and everywhere
blood by blood death is coming
while you wait
for the peace is that free
or must i pay?

children grow under fire
people are getting tired
misery has no mercy
the pain has come
