"Angel Of Steam"

Rain keeps falling
my soul will be ready to fly
fire are coming
the soldiers of fortune will die
angel of lovers
lost all the illusion to love
king of the forest
is talking bout the end of the world

listen to the man
who changed the world instead of fame
tell me if you can
follow me till the end

stay the same
baby follow my way

now there?s a hot wind
weather is changing my mind
word?s today is suicide
your eyes shine till mine?s keeping blind
