You used to cry  
when the things were wrong  
and future isn't bright  
things have changed  
since the morning after  
you are not the same

it's not late  
i need another way  
for learning what to say  
cos i'm falling

i'm growing fast  
crying in the past  
living in a cloud of dust

and what's going on?  
who knows what we are living for

i'm getting old  
time is gold  
i'm fighting for your hidden love

it's a brand new day  
it's time to say the last goodbye  
to you today

living in a cloud of dust
