Down

i?m foolin?around
there?s nobody on the ground
stay away today?s my day

down

people asking me
what do you want to be
i want to feel everything i see

down

send me a sign
everytime i go i lie
cos i?ve found the way to be alone

down

a letter was wrote behind my back
by a beautiful woman
with some beautiful lines

down

let me hear the sound
let me hear the offence
let me choose which way to get

lie

the sky is turning black
the light is black and white
and this site is full of grime

lie

the energy is on
but where it comes from
don?t know the reason why it flows

lie

the people is dying out
the air is thick and false
and it grows under a red sky

lie

your words are being told

but your mouth is getting close
while a rose is raising from a millenary stone

go down step down
