I?m growing on my way  
i don?t care people says  
i?m learning purposes again  
life hasn?t change it?s not too late

and i?m waiting i?m waiting i?m waiting  
for new revealed times  
signs of tire over my old face

and i?m wasting i?m wasting i?m wasting  
my primitive feeling out of my mind  
but please stay

growing living learning how to die  
feeling lying flying just stay  
new times  
and i?m falling falling falling in deep and darkness  
dreams  
just stay in my ears
