I feel it over seas anytime
i feel it over scenes of a crime
i feel it over death scary lines
i feel it in my dreams in my mind

waiting for a ray of faith
waiting for a better day
waiting for the words
the human being are writting on a fence
waiting for a brand new time
a time your time my time...

it?s growing in my pain anytime
it?s growing over you bad signs
it?s growing in my youth mature time

waiting for a ray of faith
waiting for a better day
waiting for the words
the human being are writting on a fence
waiting for a brand new time
a time your time my time...

to understandthe influence
no sense defence
to live again
