Dreams are real
All you have to do is just believe
Dreams are real
All you have to do is just believe

There is nothing that should ever
Take your heart away from
What it is you wanna do
You should always go with what you love
Don't follow no one else
Just do what's good for you

Tell 'em, dreams are real
All you have to do is just believe
Dreams are real
All you have to do is just believe

Sometimes people try to bring you down
They wanna see you frown
Just keep your faith in you
Does it matter if they try to tell you
That you'll never make it
This is what you do

Tell 'em, dreams are real
All you have to do is just believe
Dreams are real
All you have to do is just believe

Tell 'em, dreams are real
All you have to do is just believe
Dreams are real
All you have to do is just believe

Dreams are real
All you have to do is just believe
Dreams are real
All you have to do is just believe
