I'm focus now
I'm focus now

You use to touch me, love me
Hug me, kiss me, hold me everyday
I never thought that I'd be finding out
That you gave your love away

Now, how do you expect for me to stay
Wake up everyday with this on the brain?
So I'm a say thanks and I'm a be on my way
'Cause I

Now, I got my head right
Time to finally say goodbye
To all the lies, and the lonely nights, so focus
That I made up my mind
You were just a waste of time, but now I'm fine
'Cause I'm focused, you're out of my life

I'm focus now
I'm focus now

I never thought that you would
Treat me like I'm just another girl
Thought I was something to ya, something new
Just me and you against the world

But, now I see this wasn't nothing real
Just another game tryin' to play the field
So I'm a let go, and I'm a move on my own
'Cause I

Now, I got my head right
Time to finally say goodbye
To all the lies, and the lonely nights, so focus
That I made up my mind
You were just a waste of time, but now I'm fine
'Cause I'm focused, you're out of my life

I'm focus now
I'm focus now

I'm not concerned about
What nobody else got to say
Don't matter just what you do
'Cause they gonna talk anyway, yeah

Just stick doin' what you do
And remember to do it just for you
So, don't even waste ya time
Keep me out ya mind
Stay on your grind

I'm focus now
I'm focus now

Now, I got my head right
Time to finally say goodbye
To all the lies, and the lonely nights, so focus
That I made up my mind
You were just a waste of time, but now I'm fine
'Cause I'm focused, you're out of my life

Now, I got my head right
Time to finally say goodbye
To all the lies, and the lonely nights, so focus
That I made up my mind
You were just a waste of time, but now I'm fine
'Cause I'm focused, you're out of my life

I'm focus now
I'm focus now
I'm focus now
I'm focus now
