**(feat. Free)**

I'm focus man yo Free why don't you holla at me man

*[Free:]*

Now who else but me slim waist with that swag  
Get on G five plans and fly fast  
If it ain't G's no I'm not there  
I've been on TV straight for five years  
Lets keep it real I cant lie to yall my eyes are now  
something like binoculars  
You put a dollar on my hand I'ma part of any plan  
I'm focus yall niggas need to holla at me man

*[Verse 1]*

He use to touch me, love me,  
Hug me, kiss me, Hold me everyday.  
I never thought that I'd be finding out  
That you gave your love away.  
Now how do you expect for me to  
Stay, wake up,  
Everyday with this on the brain.  
So Imma say thanks  
And Imma be on my way.

*[Chorus]*

Now I've got my head right.  
I can finally say good bye  
To all the lies, and the lonely nights  
So Focused

Now I've made up my mind  
You were just a waste of time  
But now I'm fine  
Cuz I'm focused you out of my life

I'm focus now  
I'm focus now

*[Verse 2]*

I never thought that  
You would treat me

Like I'm just another girl.  
Thought I was something to you  
Something new.  
Its me and you against the world.

But now i see this wasn't real  
Just another game tryna play the field  
So Imma let go  
And Imma move on my own

*[Chorus]*

I'm focus now  
I'm focus now

Not concerned about  
What nobody else gotta say  
Just do what you do  
Cuz they gonna talk anyway  
Yea  
Just stick with what you do  
But remember to  
Do it just for you  
So don't even waste ya time  
Keep it out cha mind  
And stay on ya grind

Now you all should know I'm focused so boy don't try to  
tell me  
In that 4 door Bentley its oh so pretty they call me a  
gorilla when I'm on my grizzly  
And I don't need a honey to be all that I can be  
Last seen on the cover of KING by the way names Free  
but yall still gotta pay  
Those ones I'm making it just explains that I'm focus  
And that's an under statement and I don't know what  
someone was thinking  
If I'm not mistaken I heard his little heart was akin he  
aint sleeping the same the people done changed  
You dead nigga the reaper came and now sad nights  
but we can have a bed fight  
Get the head right every night  
Do what you supposed to do playa I approach you  
cause I'm so focus now nigga

*[Repeat Chorus 2x]*

I'm focus now  
I'm focus now
