"No Good"

Visit "[No Good](#)" on MotoLyrics.com

Uh, uh when you hear it knockin? like that
Y'all know what this is

When my man leave the house
I know he? s coming right back
I got that good good
I got that good good

No matter how much he might try to act
He know just where it? s at
I got that good good
I got that good good

I put it on him right, I do it every night
I leave him sittin', mouth open like
So I don? t worry 'bout, nobody takin' my
'Cause I know just the right thang to do
I got that good good

I never had a problem keepin' one
Never been worried about him ever cheating on me
'Cause when I say I got that pop lock and drop it,
believe me
If I? m with you it? s gonna kill you, on the days you
don? t see me

See the things I possess a lot of women don? t
And the things I? mma do for my, most won't
I hear him talking 'bout it when I? m up in the salon
Crying 'cause their man ain't come home
I try to tell 'em

When my man leave the house
I know he? s coming right back
I got that good good
I got that good good

No matter how much he might try to act
He know just where it? s at
I got that good good
I got that good good

I put it on him right, I do it every night
I leave him sittin', mouth open like
So I don? t worry 'bout, nobody takin' my
'Cause I know just the right thang to do
I got that good good

Ladies don? t believe half what you hear
'Cause it's all a waste of time
If you know you got that good good good
Everything will be just fine

So let your man be the man when he in public
Even though behind the scenes y'all be runnin'
Let him run with his boys, let him play his little games
Let him drive his Cadillac, don? t worry he'll be back

When my man leave the house
I know he? s coming right back
I got that good good
I got that good good

No matter how much he might try to act
He know just where it? s at
I got that good good
I got that good good

I put it on him right, I do it every night
I leave him sittin', mouth open like
So I don? t worry 'bout, nobody takin' my
'Cause I know just the right thang to do
I got that good good

If you got that good good
And you know it ladies show 'em where it's at?
(Right here)
Where it's at?
(Right here)

If you got that good good
And you know it ladies show 'em where it's at?
(Right here)
Where it's at?
(Right here)

See I don? t know what them other girls be doing
They be crying 'bout they man 'cause they always
losing
You need that
(Good good)
Gotta have that
(Good good)

To keep 'em
(Good good)
They need that
(Good good)

When my man leave the house
I know he? s coming right back
I got that good good
I got that good good

No matter how much he might try to act
He know just where it? s at
I got that good good
I got that good good

I put it on him right, I do it every night
I leave him sittin', mouth open like
So I don? t worry 'bout, nobody takin' my
'Cause I know just the right thang to do
I got that good good

When my man leave the house
I know he? s coming right back
I got that good good
I got that good good

No matter how much he might try to act
He know just where it? s at
I got that good good
I got that good good

I put it on him right, I do it every night
I leave him sittin', mouth open like
So I don? t worry 'bout, nobody takin' my
'Cause I know just the right thang to do
I got that good good
