The things you make me do
Woo hoo, ahh babe, ahh darling, oh no
The things you make me do
The things you make me do
The things you make me do

I think every part of me is addicted to your touch
'Cause everything I got inside of me
Got me needing you so much, hey

Got me open, got me coasting, got me floating baby
Got me joanzing, got me zoning, got me going crazy
Boy I'm shaking, body aching, got me waiting baby
These are all the things
(The things you make me do)

Be your wife, I'll be the air you breathe
I'll be your drug, do anything you need
(The things you make me do)
Washing dishes, blowing kisses in the bubbles babe
I'll be your bad girl that loves to get in trouble babe
(The things you make me do)

Be your wife, I'll be the air you breathe
I'll be your drug, do anything you need
(The things you make me do)
Take you shopping for some rims and buy you jewelry
babe
And all my friends may think I'm crazy
(The things you make me do)

Secret crazy hoes can't, can't on the floor
Probably performers I'm begging, begging for more +
private
You're so naughty and nice, you're so naughty and nice
Run Ashanti run you know I wanna chase it, ooh

Got me open, got me coasting, got me floating baby
Got me joanzing, got me zoning, got me going crazy
Boy I'm shaking, body aching, got me waiting baby
These are all the things
(The things you make me do)

Be your wife, I'll be the air you breathe
I'll be your drug, do anything you need
(The things you make me do)

Washing dishes, blowing kisses in the bubbles babe
I'll be your bad girl that loves to get in trouble babe
(The things you make me do)

Be your wife, I'll be the air you breathe
I'll be your drug, do anything you need
(The things you make me do)
Take you shopping for some rims and buy you jewelry
babe
And all my friends may think I'm crazy
(The things you make me do)

It's like you're a fairy tale
Almost too good to be true
'Cause even when I go to sleep at night
My body still be dreaming you
Hey, yeah

Got me open, got me coasting, got me floating baby
Got me joanzing, got me zoning, got me going crazy
Boy I'm shaking, body aching, got me waiting baby
These are all the things, the things you make me do

Be your wife, I'll be the air you breathe
I'll be your drug, do anything you need
(The things you make me do)
Washing dishes, blowing kisses in the bubbles babe
I'll be your bad girl that loves to get in trouble babe
(The things you make me do)

Be your wife, I'll be the air you breathe
I'll be your drug, do anything you need
(The things you make me do)
Take you shopping for some rims and buy you jewelry
babe
And all my friends may think I'm crazy
(The things you make me do)

They think I'm crazy babe, hey
Run Ashanti run you know I wanna chase it, ooh
They don't know what you do to me babe
They don't know what you do to me babe
They don't know what you do to me babe
Hey babe, hey babe
