Uh. know what I mean  
We all, we all got our own thing,  
And here's mine...

[Verse 1]

Now my things was cool  
I swore I'd never break the rules  
Straight with you cause I could relate to you  
Stay with you  
Special in my book  
In my point of view he couldn't sex you like I could  
You got what you wanted  
And flaunted what you wanted  
And I went a little further even when you didn't want it  
Cause right in time, right what I had in mind  
Plus your heads been right in mine (my mind)  
So I took the time, my choice was to love you.  
I didn't listen when they said never should I trust you.  
So why must you, take me for granted  
I swore you loved me too, damn I'll never understand it.  
I'm a man with feelings too  
And I'm a fool for the way I still feel for you.  
But here's to you, I'm a better man then that  
You took my heart then and now I want it back  
So come on

[Chorus]

Told me you and I might live together  
someday(someday)  
Now I see it in a whole new other way  
And ain't gonna lie girl you need to realize  
I'm staying home tonight (so come on)  
Said I wanna be alone (said I wanna be alone)  
All by myself  
Said I'm staying home, I don't need no one else (wanna  
be alone)

[Verse 2]

I was cool, gave you one more chance  
You gave the same old song, same old dance,  
So hell with it, I had to face that shit.  
You was too immature for relationships,

So I moved on for the time being,  
Then I heard a lie, there's a guy that you were caught  
seeing,  
I flipped shits, but you flipped shits right back,  
You cried, you knew I wouldn't do you like that,  
Still my heart was lonely, nobody to hold me.  
You was my only, damn girl you was my homie,  
You know me, you said you were stuck back there,  
So when I tried to leave, you sucked me right back in.  
Why would I taste what I already ate?  
So I took time to get my priorities straight.  
So listen you know me well I hate to doubt you,  
But girl truth is I'm better off with out you and

[Chorus]

Ttold me you and I might live together  
someday(someday)  
Now I see it in a whole new other way  
And ain't gonna lie girl you need to realize  
I'm staying home tonight  
Said I wanna be alone (said I wanna be alone)  
All by myself  
Said I'm staying home, I don't need no one else (wanna  
be alone)

[Verse 3]

Damn girl, I thought it never would end.  
But this is it that's all, never again.  
I couldn't deal with it then and I sure can't now.  
So what makes you think I'ma let you hold me down,  
no.  
I told you before never to roam  
But this is real when I say, "leave me alone."  
I gotta be on my own, and you do too.  
Through and through just please let me do what I do.  
Maybe sometime soon we can both be friends,  
But for now this is where it's suppose to end.  
My brain is sick, my heart is torn, my arms are empty,  
But baby girl I just need to be alone,  
My heart will beat alone, and I keep my head up.  
But for now truth is I'm a little bit fed up.  
I don't hate you though, you still close to me.  
So lets just go back to how we used to be, cool...

[Chorus]

Told me you and I might live together  
someday(someday)  
Now I see it in a whole new other way  
And ain't gonna lie girl you need to realize  
I'm staying home tonight (so come on)  
Said I wanna be alone (said I wanna be alone)

All by myself  
Said I'm staying home, I don't need no one else (wanna  
be alone)

Sitting here in this chair,  
Waiting on you aw baby, to see things my way  
Why don't you see things my way  
(Woahhhhhh)

Told me you and I might live together  
someday(someday)  
Now I see it in a whole new other way  
And ain't gonna lie girl you need to realize  
I'm staying home tonight (so come on)  
Said I wanna be alone (no no no no no)  
All by myself  
Said I'm staying home(said I'm staying home)  
I don't need no one (wanna be alone)  
I'm so gone.
