I see you, the hottest thing up on the floor,
The way she moves got me wantin more,
Drink in my hand, DJ play my song,
Got me feelin good im about to get it on,
I cant explain im in the mood the way you do the things
you do,
She got the look she got the moves, she got it ooh she
demonic
On the dance floor she transforms, the way that she
moves put a trance on you,
Ooh can I put my hands on you, theres not much that I
won't do
Its no secret I want ya girl you're my mantre girl free
aren't ya girl
I'm at your mercy girl don't hurt me girl got a bad case
of a devil worshiper....
Nah nah nah hold up hold up hold up
I'm on my way in rap, ain't no girl gettin in the way of
that,
I want my name on plaques on stage im phased im a
dangerous actaaa
Strange as that little ash blew up got famous fastaaa

But fame is wack, I came here to change it, take it back
Cause the way we act and the way we rap yea its
maniac, satanic practically
We want change then changed we have to be
You see me I speak proactively and back it up with the
things I do
Everything we do we should think it through, yea I seek
the truth then I seek the booth
Yea I deep my roots to speak to you yea the scenic
route I take for inspiration
Converse with nature relay information, its different its
intimidation
But its new ways we are integration
This is it this be the disc good for the soul, safe for the
kids,
A to the s h to the e r you ready for the greenhouse
effect
