"Might be the most slept on the world  
saying all this cool shit just get ignored like:  
'word white boy, whatever dude forget it.  
I hope you learned your lesson, no one pays you no  
attention'  
no longer fielding questions, go cancel all my sessions  
I'm giving up fuck it, they all got the wrong impression  
bench players getting all the minutes since I left em'  
shooting every second but can't even even hit the  
netâ€¦man  
these listeners be missing the original  
mr.invincible knows no-limit like I'm mystikal  
hit the bowl, hit the road, headed out to rip a show  
Make em' flip the lid, explode the heads of those who  
didn't know  
trespassin' on asher's grass maggot  
I'm a cracker wrapped black, half and half (Lenny  
Kravitz)

And yeah I'm passionate when it comes to this rap shit  
So I can't stand when all the rappers kick whack shit  
Like dat kid better off chewing cactus  
Going run laps homie, go on home and practice  
'Ash don't be mad that you took a leave of absense  
and since your last track all these other kids have  
cashed in'  
well now I'm back, thanks for keeping my seat warm  
rapping don't work out, better go and join the peace  
corps  
he's sore, don't give a fuck about your week boy  
tell me hows it feel to be just another decoy?  
Rejoice yeah the heats back up on it  
house done rented, time to pack up tenants  
Rejoice yeah the heats back up on it  
house done rented, time to pack up tenants"
