If you think you'll get away with this
you're a silly boy, silly silly boy
If you think that you can talk your shit
you're a silly boy, silly silly silly boy
If you think you'll get away with this
you're a silly boy, silly silly boy
If you think that you can talk your shit
you're a silly boy silly silly silly boy
(yes)

Your emotions got the best of you this time, prime time
I know you love me
You think I'm unkind
I know your hearts broken
and that you miss me
And that's really the only reason you will diss me
I know you don't mean it
Your not a mean spirit.
There's not a demon in you dude,
I can see in you
(bitch)
Your just a loser with several
with self esteem issues.
Don't make me prove it
I'll ruin you and will have to finish you.
Sub zero, So cold
don't go there,
It's no fair, I know that it's though,
I just don't care
(Don't care)
Not a bone in my body that will vibe with you,
(nah)
and you're a silly boy thinking i would ride with you
(ha ha)
Don't wanna lie to you,
Honestly is vital.
Scooter is just cooler,
You know it I know it
and you're threatened by the presence of the present
tense.
You're scared to death of what will happen in a second

Messing with a loaded weapon hoping it won't blow ,
and when it does it will explode in your face, (face)
Let me go it will only be a second this is nothing i can't
handle
silly boy will be put in his place

If you think you'll get away with this
you're a silly boy, silly silly boy
If you think that you can talk your shit
you're a silly boy, silly silly silly boy
If you think you'll get away with this
you're a silly boy, silly silly boy
If you think that you can talk your shit
you're a silly boy silly silly silly boy

Yeah as soon as I see success they peek their heads in
and search frantically for anything that will end me
Must be aware
I needa choose my words carefully,
they will, will get construed
is use to embarrass me
it's hilarious the lows they will stoop to, they'll dig
through your rooms in hopes to remove you
the truth is your label fruits are rotten
and i am the reason you're as far as you gotten.
So it is I who will make sure you to stop it you polish
your plane and I'll play with my rocket, you a jock itch,
get off my cock bitch, you laid in the coffin and i only
lock it

If you think you'll get away with this
you're a silly boy, silly silly boy
If you think that you can talk your shit
you're a silly boy, silly silly silly boy
If you think you'll get away with this
you're a silly boy, silly silly boy
If you think that you can talk your shit
you're a silly boy silly silly silly boy

And that eminem comparison is barely accurate
My rapping is passionate
But lacks the psychopath of it
I'm just unpacking I just moved in this afternoon
Learning the rules it may take some getting used to
Not even twenty-two just had my first group
May be the reason I am tweaking on this first sooth
Who would have thought as I see Universal Steve would
believe that I said I would curse you
When I work I will force every morsel
Contortionist of words the enforcer of oral not a torch
in the world you can hold at me, let alone any stone you

can throw to me
I'm out of reach can't even say hello to me
In the zone, on my own you don't even know me, and I
don't know you, you are no one
Just an almost, that i owe one

If you think you'll get away with this
you're a silly boy, silly silly boy
If you think that you can talk your shit
you're a silly boy, silly silly silly boy
If you think you'll get away with this
you're a silly boy, silly silly boy
If you think that you can talk your shit
you're a silly boy silly silly silly boy

Now I don't owe you SHIT stupid motherfucker (haha)
There never has been and never WAS (never was,
never was)
