When your life seems ripped apart
What's left take a deep look inside yourself
In misery a haze drown in sorrow
Live your life like there's no tomorrow
At a point you come to terms with why
There is truth in a world full of lies
So much went wrong and you're desensitized
They lost hope not you
Flames they burn inside you

This is all I ever wanted
Passion for destitution

From the bottom up to the top
Realize this is all you got
God help the ones injecting poison
Ears are bleeding from what's so annoying
And soon it will all be lost
Your ride crashes to a fatal halt
Smoke clears what's left is mass destruction
Sometimes life can be so deceiving

This is all I ever wanted
Passion for destitution
Stoke the fire
That burns your life away

I wanna take another chance
What else is there anyway
More bills, no hope no life no fun
I wanna take another chance
I've seen it all first hand
What else is there anyway

Welcome to your future
You're trapped inside your past
This isn't the first time
It wont be the last
Break free from the shadows
Leave it all behind
Life is what you make it
Seize what you want
