Caught up in this cage again
Caught up and it's never holding back
I just hate the way it seems
Always taking time and never making ground

I'll tear this all apart
Tear this all apart

I'll tear this all apart
Tear this all apart

And I remember the time that you let me in
Remember the time that I waste it's all the same

I just hate the way it seems
Carry all this weight on my shoulder

I'll tear this all apart
Tear this all apart

I'll tear this all apart
Tear this all apart

*Guitar Solo

I'll tear this all apart
Tear this all apart

I'll tear this all apart
Tear this all...
