Don't you know (x2)

[Verse 1]

I can see everything now

How I wanted to

How I wanted to

I can feel all of your pulse like I never knew

Like I never knew

No feet on the ground

Wait till this light and sound, go

Up on cloud

There's just no time

It's just you and I

It's just you and I

[Chorus]

I know I just wanna get lost in this high

Till it fades away

I know that I'm gonna come down in a while

If you come my way

Don't you know

Ever since you left

I've been sedated

Now check this

I wish we never dated

Don't you know

I'll be up there

I'll be up there

Til it's time to come down

Til it's time to come down

Til it's time to come down

[Verse 2]

I might be outta my head

But falling down

But I'm falling wild

I might go out of myself

But I'm feeling numb

With nothing at all

No feet on the ground

Wait till this light and sound, go

Cause we've got nine lives

And you know we're not scared to die

Not scared to die

[Chorus]

I know I just wanna get lost in this high
Till it fades away
I know that I'm gonna come down in a while
If you come my way
Don't you know
Ever since you left
I've been sedated
Now check this
I wish we never dated
Don't you know
I'll be up there
I'll be up there
Til it's time to come down
Til it's time to come down
Til it's time to come down

Ever since you left
I've been sedated
Now check this
I wish we never dated(x2)
