She reels you in with her scent and her smile
You buy a drink and you stay for a while
There's no telling of her disaster
She's got a knife and its you she's after
Whoa-oh-oh
It's her scent and her smile
Whoa-oh-oh
You jump in bed and you stay for a while
Get away gotta get away now
Don't go to her she's a serial killer
Get away gotta get away now
Don't go to her she's a serial killer
She's a serial killer
You're waking up before the clock hits midnight
You're in her bed but she's nowhere in sight
Here's the ending for this disaster
She's got a gun and it's you she's after
Whoa-oh-oh
It's her scent and her smile
Whoa-oh-oh
You jump in bed and you stay for a while
Get away gotta get away now
Don't go to her she's a serial killer
Get away gotta get away now
Don't go to her she's a serial killer
She's a serial killer
