If it makes ya feel better, im here and if it makes ya feel better i'll see ya and come and come to see whats right. And if it makes ya feel better ill bring you something and give and give what i have.

Makes you feel better. See, i give you what i have and then you throw it away.

Chorus:

If you want to be good, then give your life to me give it all away and then you'll see. If you wanna be bad then keep it, keep it and dont give it away, see what I say. It's your choice and then you'll see what will happen to me and not you.

If it makes you feel bad then I will leave. If it makes ya feel bad I won't come and not come and then you'll see whats wrong. And lastly I'll take it all back and won't give ya what you want.

Makes ya feel bad. Well, maybe I wont give you all that ya need.

If you want to be good, then give your life to me give it all away and then you'll see. If you wanna be bad then keep it, keep it and don't give it away, see what I say. It's your choice and then you'll see what will happen to me and not you.
