# "Everything Changes"

Visit "[Everything Changes](#)" on [MotoLyrics.com](http://MotoLyrics.com)

What you see today is not here to stay  
What's going on right now will all go away  
We can't stop the weeks from turning  
Round and round and round  
Whether or not you'll like it  
That time keeps moving on  
Like the moon to the sun  
It affects everyone  
As the night turns to day  
Just know that it's gonna be,  
It's gonna be okay!

Cause everything changes  
And that goes for me, yeah  
Life, it just progresses and lessly  
Don't you know that everything changes  
Sometimes it brings pain  
It's okay, don't be sad  
As I change

Nobody is the same from how they use to be  
Time treats us equal and works the same on me  
I'll be different tomorrow than how I am today  
Don't hold on to what was in my younger days  
Like winter turns to spring there'll be a change in me  
Just ease your mind, it will all be fine  
Just wait and see!

Don't you know everything changes  
And that goes for me, yeah  
Life, it just progresses and lessly  
Don't you know that everything changes  
Sometimes it brings pain  
It's okay, don't be sad

We don't have control of it  
Unavoidable, unavoidable (Unavoidable)  
Nothing can be done about it  
Unpreventable, unpreventable (Unpreventable)  
Like the world spinning around  
Or the crashing of the waves

It's unescapable, unavoidable  
Tomorrow will be a new day!

Cause everything changes (yeeaaaahhh)  
And that goes for me, yeah  
Life, it just progresses and lessly  
Don't you know that everything changes  
Sometimes it brings pain  
It's okay, don't be sad cause...

Everything changes  
And that goes for me, yeah  
Life, it just progresses and lessly  
Don't you know that everything changes  
Sometimes it brings pain  
It's okay, don't be sad  
As I change
