You can drink your broken heart to sleep  
Get a message that your soul's to keep  
Before you fall into a hole too deep  
Or get a notion that you can't be beat

Try to wipe out each and every mile  
Get twisted in your own good style  
You're not arrested, don't you go on trial  
You better get it on down that Nile

Chorus:  
Better you get ready  
Better you get ready  
Better you get ready  
On time

You can shuck and jive your whole life through  
Go dancing even lose your shoes  
Relax, have a joke or two  
What'll happen you'll find someone new

Talk softly when you need to pray  
It's not for me to really say  
I know you're gonna go your way  
Heaven knows I only wish you'd stay

Chorus
