Hold on, we're going to the brink of what we have  
The craziness surrounding us is driving me past mad  
I don't want to lose you  
But baby I might have to  
If you don't understand

Don't jump into the waters yet, they're calming down  
It's just two simple steps, breathe in and breathe out  
I don't want to let you go  
But I have to let you know  
If you don't understand

You're the only thing I'll ever cherish  
Even if nobody else gets it  
I'll never let you down  
So take my hand before we drown

Grab me tight if your wish is to survive  
We only have one chance at living this life  
Always remember me  
Even in your dreams  
I hope you will understand

Ask the sparrow what song she is singing today  
Inquire the meadow which direction the grass will sway  
And we can plan it then  
For you I will defend  
I'll never give up, please understand

You're the only thing I've ever cherished  
Even though nobody else gets it  
I refuse to let you down  
Baby take my hand before we drown

Ask the sparrow what song she is singing today  
Inquire the meadow which direction the grass will sway  
And we can plan it then  
For you I will defend  
I'll never give up, please understand
