It's been an hour since you said goodbye
Didn't know how hard I could cry
Until that night
But I'll be all right

[Chorus]
I'm going to... lay down my soul
For a night, baby
And thinking it will get better
Just maybe
I want to... let go of everything and
Fall into your hands

I hope you realize what you let go of
The best thing you ever had was my love
But now that it's gone, what will you do?
You better not think that I'm sad too.

[Chorus]

I've spent many nights
Wondering why
But now I think I'll get by
I've tried and I've tried
But I couldn't control you
So we're through

[Chorus]
