[Chorus]

Where are you going?
Don't leave me in fear
I love you too much, baby
Won't you please stay here?

I'm not gonna let you leave
Not for the life of me
You're walking on my ground
I'm forcing you to turn around
You're not going anywhere
That's right, you're staying here

[Chorus]

I'm sick of playing nice
Gonna take my own advice
Because of you I'm stuck on this
That's why I'm gonna persist
You're going to remain near
I told you that you're staying here

[Chorus]

Now you can walk out the door
Can't take you anymore
Don't know why I wanted to
Ever keep you
Go and get a new career
Sorry, but I'm staying here

[Chorus until fade]
