It is like you're a drug  
It's on you that I'm stuck  
And the platform I'm on is down  
It is like you're champagne  
With you, there's no pain  
You numb me 'til I come round

[Chorus]  
I O.D.'d  
Someone save me  
Like rehab  
I'm going crazy  
I've never felt this rush  
Like a pill and like a liquor  
I've taken too much

On a high, in the sky  
Don't know why I ever cried  
When I'm around you  
The bottle is empty  
Please refill me  
Be my Jim Beam

[Chorus x2]

Let me relapse  
Let me relax  
You're my vodka  
Yeah, I want ya

[Chorus x3]

I've taken too much of you
