I don't know what to do  
When I come around you  
You look at me and I die  
So here I go, my last try  
I'm praying that you'll notice  
What I've done for you  
Because I never noticed  
You always stayed true

[Chorus]  
Correct me if I'm wrong  
Just tell me to stop  
I know that I've done bad  
I know I made you mad  
And even if it takes a lifetime  
Even if it takes a year  
One day I'll be the one you seek  
Because you make me weak

I want to kiss you again  
Don't want this to ever end  
And when it does I'll miss the times  
We used to spend together  
And I've made a lot of mistakes  
But now matter how many times it takes  
I'll never give up  
Because we will be forever

[Chorus]

You make me feel faint  
You make me uncomfortable  
In the best way possible  
You make me feel numb  
You make me light up  
In this, I give all my love  
You're making me so weak

[Chorus x2]
