There used to be a mother and a sister and me
A happy little family and that's alright with me
But mom got married and so everything changed
Somethings were lost and others were gained

A new school, A new house
So many changes that makes my head spin
Now I got a brother who gets under my skin

This is life with Derek
This is life with Derek
This is life with Lizzie, Edwin, George n Nora, Marty n
Cassey

This is life with Derek
This is life with Derek
This is life with Derek
This is life with Derek
