Why you talkin' all that talk
Who you tryin to impress
Think you better check your style
That might've worked before
But I ain't havin it

Show me that you got the touch
Hear the words that I don't say
Gotta read between the lines
You gotta learn the song cause

[Chorus]

I wanna be played
Like a sweet guitar
Played like a slow jam in the dark
Gotta find the groove
You know what to do
To get to me
I wanna be played
Like a violin
Make the strings talk with your fingertips
Never go to fast
Gotta understand
The way I need to be played

It's not about the way you roll
You're making it too obvious
Try to be original
You gotta learn me
Don't be in such a rush

I can be your symphony
Listen to me all night long
If you give me what I need
I could be your favourite song

[Chorus]

I wanna be played
Like a sweet guitar
Played like a slow jam in the dark
Gotta find the groove
You know what to do

To get to me

I wanna be played
Like a violin
Make the strings talk with your fingertips
Never go to fast
Gotta understand
The way I need to be played

Baby just like that (like that)
C'mon and do it again (played)
We're gonna get this right
Even if it takes all night

Ohh
Oh (oh)
Yeah

Do you feel me?
That's right
Take it nice and slow

[Chorusx2]
I wanna be played
Like a sweet guitar
Played like a slow jam in the dark
Gotta find the groove
You know what to do
To get to me
I wanna be played
Like a violin
Make the strings talk with your fingertips
Never go to fast
Gotta understand
The way I need to be played
