Oh
Oh
Oh

Why you talking all that talk
Who you trying to impress
Think you better check your style
That might have worked before but I ain't having it
Show me that you got the touch
Hear the words that I don't say
Gotta read between the lines
You gotta learn this song
Cause

I wanna be played
Like a sweet guitar
Played like a slow jam in the dark
Up on the roof
You know what to do
To get to me
I wanna be played
Like a violin
Make the string talk with your finger tips
Never go to fast
Gotta understand
The way I need too be played

It's not about the way you wrote
Your making it too obvious
Try to be original
You gotta learn me
Don't be in such a rush
I can be your symphony
Listen to me all night long
If you give me what I need
I can be your favorite song

I wanna be played
Like a sweet guitar
Played like a slow jam in the dark
Up on the roof
You know what to do

To get to me
I wanna be played
Like a violin
Make the string talk with your finger tips
Never go too fast
Gotta understand
The way I need to be played

You make it just like that
Come on do it again
Were going to get this right
Even if it takes all night
Ooh
Oh oh
Ya eh ya
Yeah
Do you feel me
That's right
Take it nice and slow

I wanna be played
Like a sweet guitar
Played like a slow jam in the dark
Up on the roof
You know what to do
To get to me
I wanna be played
Like a violin
Make the string talk with your finger tips
Never go too fast
Gotta understand
The way I need to be played

Played
Like a sweet guitar
Played like a slow jam in the dark
Up on the roof
You know what to do
To get to me
I wanna be played
Like a violin
Make the string talk with your finger tips
Never go too fast...
