you know me so well you know me more
you don't see why there is one to many
(one to many)

all you do is make this harder for me to choose.
cause it's one to many!

my mamma always said to choose the right one.
but who is the right one? my daddy said to just choose
one.which one?

i can't decide cause there's one to many
i can't decide cause there's one to many

they both give me roses how sweet
these ones are plastic how cheap
they both give me jewelry how sweet(sweet)
this one is fake how cheap

they both messed up once oh no now who do i choose

i can't decide cause there's one to many
i can't decide cause there's one to many
i can't decide cause there's one to many

i'll just take both and i'll have plenty! x3

i can't decide cause there's one to many!

my mama always sad
