We gotta talk there's a rumor I heard
It's legitimate I found out from her
After all I've done is it what I deserve
Stupid me I thought our love was for sure

If you did it then admit it cause it's written all over
you two
Called your bluff
Had enough
I'm so over it
You'll be sorry, but don't worry cause I already
Found somebody new
Tough luck
You suck
That was such a waste

Whatcha waiting for
Come over and give it to me
I already know what you did
Whatcha waiting for
Whatcha running from
Baby, baby, baby
Why you're cheating on me
Whatcha waiting for
Whatcha running from
Baby, baby, baby
How could you do this to me

Don't get it twisted I need nothing from you
So pack your bags and your Guitar Hero too
They say that breaking up is a hard thing to do
But oh so easy when you're dumping a fool

If you did it then admit it cause it's written all over
your face
Called your bluff
Had enough
I'm so over it
You'll be sorry but don't worry cause you're

Really not that hard to replace
Tough luck

You suck
That was such a waste

Whatcha waiting for
Come over and give it to me
I already know what you did
Whatcha waiting for
Whatcha running from
Baby, baby, baby
Why you're cheating on me
Whatcha waiting for
Whatcha running from
Baby, baby, bayb
How could you do this to me

La la la la la la
That don't work anymore

Shut your mouth
I don't care
Game is over

La la la la la la
Heard it all before

No way back
You so whack
You're a loner, loner

Whatcha waiting for
You messing with my head
I can't take this no more

And all the things you said

Whatcha waiting for
Come over and give it to me
I already know what you did
Whatcha waiting for
Whatcha running from
Baby, baby, baby
Why you're cheating on me
Whatcha waiting for
Whatcha running from
Baby, baby, baby
How could you do this to me
