Hold oh hours  
I believe it  
To be broken  
I cry for you  
...for you  
Why I homage truth?  
Blink too deep  
Forever shattered...  
I wonder, where is thy sign?  
Coming in gold divine  
Forlorn years in solitude  
Amidst my shelter I lay  
Derelict, I yearn to be sane...  
Will I stand and rise again?  
How can I know hell is gone?  
Can I be sure that Iâ€™m alone?  
Obsessed by cruelty  
Is my soul now free?  
Freedom...  
Endless trip to hide my mind  
From oblivios scars that stil can shine  
Held by ancient words they said to me  
An infinity, that wonâ€™t ever let me be myself  
When am I going home - to reality?  
When am I going home - to eternity?  
When am I going home - to the real me
