Lucy Jones Part 1:

Looked a lot like Evengelista

Strange to think I'd ever miss her....so

Never got to meet her sister

She was young and I was far too....old

Was this love, Superficial love, Was it me.

I had a superlove experience when I was seventeen

Chorus:

I'd like to fly, I've got to try, I've got to find a way out.

But here comes Lucy Jones,

Man, how she's grown,

Bet she gives it away

Now she looks like monday morning

Waiting patiently she tells me so.

Years they seemed to go so fast

Wish there was a moment I could hold.

Was this love, Superficial love, Was it me.

I had a superlove experience when I was seventeen

Chorus

I'm so glad she found me

I still love her madly now

She's so cold and boring

Got to go to church on Sunday morning

I think she's married now with a car and a house,

And she's one on the way

Chorus
