We're falling. we've fallen from our ship and we're stranded here forever. forever we're lost in outer space so far away. all we did was we played the adventurers as we traveled all across the universe and through time. it would blow your mind. we took a turn for the worst when we crossed paths with a wild shooting star. it had clipped us. there's a hole in the wing of the ship. sparks fly as we collide. golden brights catch my eyes. we're falling. we've fallen from our ship and we're stranded here forever. forever we're lost in outer space so far away. we're lost in outer space.. we will never find our way out of the infinity. will we ever find our way back to sweet dreams? all we've got for a guide are flashes of light
