You never told us where you were  
You never said anything  
I cried myself to sleep at night  
Did you even care for us?

You had a choice but let me down  
Disappointment, silent torment  
I remember being pushed to the edge  
And being torn apart

How could you do this to us?  
How could you make us suffer?

And now...

I'm burning inside,  
But I don't blame you for the pain  
I am still bleeding, and I am shattered

Still you're the same, still it's you I should blame  
Although you had your reasons, you never had to act  
like you did  
Feeling sweat, feeling cold, I'm so left alone  
Disappointment, silent torment  
The picture of you slowly fades to grey, I feel sick

How could you do this to us?  
How could you make us suffer?

And now...

I'm burning inside,  
But I don't blame you for the pain  
I am still bleeding, and I am shattered

Seek the traces inside  
Feel the traces inside  
Love the traces inside  
Let them guide you out

How could you do this to us?

How could you make us suffer?

And now...

I'm burning inside,  
But I don't blame you for the pain  
I am still bleeding, and I am shattered
